Dear [REDACTED]

## ARE YOU AND YOUR NEIGHBORS PARTY VOTERS?

Our records show that most Americans vote for candidates from both parties. In other words, people vote based on the candidate, not that candidate's party. But some people keep blindly voting based on party alone. We're sending this mailing to you and your neighbors to publicize which nearby neighborhoods actually vote for candidates from both parties.

This chart shows your neighborhood in comparison with other nearby neighborhoods, giving a grade (A = always votes across party lines, and F = never votes across party lines) based on how often the neighborhoods have voted for candidates from both parties. While we have hidden last names to protect their privacy, these reflect the real voting records in nearby neighborhoods.\*

After the **November 5th** General Election, we intend to mail an updated chart. You and your neighbors will all know which neighborhoods vote the candidate, and which just vote for the party. So don't be a party voter, and vote for candidates from both parties this Election Day.

| Neighborhood                     | Current Grade | 2019 General Election Grade |
|----------------------------------|---------------|-----------------------------|
| [REDACTED] Neighborhood          | F             | _____                       |
| Larry [REDACTED]'s Neighborhood  | F             | _____                       |
